

Bridging Horizons Academy

Special Education Services Disclosure Statement

In accordance with **Section 1002.421(1)(j), Florida Statutes**, Bridging Horizons Academy provides the following notice to parents and guardians:

A parentally placed private school student with a disability does not have an individual right to receive some or all of the special education and related services that the student would receive if enrolled in a public school under the Individuals with Disabilities Education Act (IDEA), as amended.

Bridging Horizons Academy is committed to providing an inclusive and supportive educational environment for students with diverse learning needs. The school may provide individualized academic support, accommodations, specialized instructional strategies, and other services based on the programs and resources available through Bridging Horizons Academy.

However, enrollment at Bridging Horizons Academy does not guarantee that a student will receive the same special education services, related services, accommodations, therapies, or supports that may be available through a public school district under an Individualized Education Program (IEP).

Parents and guardians are encouraged to discuss their child's individual educational needs, available school services, and any applicable educational plans with Bridging Horizons Academy Administration prior to enrollment and throughout the student's enrollment.
